

INDUSTRY-LEADING REPORTING

TRANSPARENT

All active investments are accessible from a single login. BAM not only provides detailed metrics for each investor's portfolio, but also thorough overviews of historical individual property performance and future outlook.

SIMPLE

Rather than tediously navigating through numerous websites or emails to locate new offerings or reporting packages, BAM's system offers an all-in-one solution for access to data and portfolio performance in real time. BAM's reporting focuses on providing investors with the information they want in an easy to understand package.

COMPLETE

BAM focuses on providing comprehensive reporting for every property. Quarterly reporting packages include historical investment information and detailed narratives for each property.
